## ABSENCE OF MIND.

The Boston Bee relates the following instances of absence of mind, which it says, actually occurred in that city, and can be attested to by several persons:

A lady called at a store in Hanover street, to make some purchases, and after remaining a short time, departed, taking with her an old broom, instead of her umbrella, and did not discover her mistake until she attempted to open it. She immediately returned and rectified the error, not a little mortified at the event.

A gentleman visiting a friend's house for the first time, after passing a very pleasant evening, rose to depart, taking with him a lighted lamp. On reaching the front steps, he very politely bid the company good night, when some of the inmates requested him to be good enough to leave the lamp. He probably thought he was going to bed.

PUNISHMENT FOR BLASPHEMY.—In 1612, the following law against profanity was passed by the Parliament of England:—Let no man presume to blaspheme the holy and blessed Trinity, God the Father, God the Son, and God the Holy Ghost, nor the known articles of our Christian faith, upon pain to have his tongue bored with a red hot iron. It appears that under this law

a soldier of Okey's regiment was, on the 26th July, 1639 sentenced to be bored through the tongue with a red hot iron, and to run the gantlet through four companies, for uttering blasphemous words, he being at the time in a raging humor with drinking too much."

THE ESTABLISHMENT OF THE HARPER'S.—The Literary Messenger for January contains the following statistics of the great printing establishment of the Messrs. Harper and Brothers at New York, the most extensive, undoubtedly, in the United States.

"Their are 22 presses in the establishment, three of which are Napier presses and 19 worked by steam. They work off regularly 70 reams of paper per day, i. e. 33,600 sheets, making 211,650 sheets per week and 10,483,200 per year. This is equal to 1,000 oct. vol. of over 500 pages per day, 6,000 per week and 312,000 per year. The fixtures in the bindery are valued at \$13,000. Here are annually used 62 blbls of flour for paste, 42 barrels of glue, 1,000 packages of gold leaf, 60 tons of paste-board and 750 pieces of muslin of 40 yards each. Then 14,400 sheep must be slain yearly to supply skins for covers. Beneath the buildings (for there are 5 tenements) are immense vaults, where the stereotype plates are deposited. These have been accumulating for 25 years, and now amount to 500,000 pounds weight, worth 9 1-2 cents per pound. 500 pounds of metal are used weekly for casting—making 11,600 pounds per annum. In the composing rooms there are from 60 to 70,000 pounds of type. The amount paid to employees, about 400 in number, (one fourth of whom are females) is \$20,000 per annum.

## FLORANCE OYSTER SALOON.

Epicurians will please give us a call, and if they do not find my Oysters to be what they are recommended, I will not ask for their patronage.

## Notice.

MONDAY, FEBRUARY 11, 1818.

BY O. F. JACKSON, 97-THAMES ST

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of Letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

The concluding Lecture of the course of eight before the Association of Mechanics and Manufacturers, was delivered on Thursday evening by the Rev. Dr. Choules. This lecture was the concluding one of Dr. C's two on the "Life and Times of Cromwell," and it was deeply interesting, as was also his first one. Dr. Choules takes the part of Cromwell, and proves, by letters of his, and otherwise, that he was governed by principle rather than ambition, in all his political movements.

No pains or expense has been spared by the Association to secure popular lecturers for the delivery of the course just completed, and the consequence is, that they now find themselves means of about \$80 over and above their receipts.

One evening in a week cannot be spent in a more profitable way than in listening to an interesting lecture on some practical or moral subject, and as the Association is somewhat behind hand in their receipts, we would suggest the idea of inviting our Clergymen and other of our citizens to deliver lectures. The lectures have been very well patronized by our citizens, and since they have got in the habit of going, they would continue to go, if other lectures were delivered. We have native talent enough among us to entertain an audience each week until spring, and talent too, that will vie with that of any lecturers we have had here from abroad. Would not some of these gentlemen lecture if invited?

ST. VALENTINE'S DAY.—To day is the popular festival of St. Valentine, which, by special proclamation from the Court of Capital, will be observed with all its merry and pleasing ceremonies. Banns and belles are busily tasking invention for fanciful devices and mottoes emblematic for the miseries which it is customary to exchange on the occasion. Stagecoaches, plying their perplexities, are endeavoring to help them out of their difficulties, by supplying those typical designations already made, after the most approved fashions, and the tenderest styles. The over-worked post office clerks sink in anticipation under the load of delicate embassies not their own, which will be piled upon them; and the weary letter-carriers are calling for additional aid to enable them to distribute in due season the four cornered favors with which they will be charged. Countless cupids, multifarious bows and arrows, delectable doves, bling and cooing, lonely lovers in arched, looking unutterable nonsense, peacocks and other innocent trifles will be scattered through our town to-day, if the advertisements in our columns, and the crowds we see in the stores of the different vendors, are any criteria to judge by.

The steamer Perry arrived here on Saturday afternoon from Providence. Her new boiler is much more spacious than the old one, and we expect that she will now be enabled to "walk the water like a thing of life."

CONSTITUTIONALITY OF SUNDAY ORDINANCES.—The Court of Errors of South Carolina has had before it the operation of the constitutionality of an ordinance of the city of Charleston, forbidding under a penalty, the sale of goods, wares and merchandise on the Lord's Day, commonly called Sunday. The Court unanimously held the ordinance to be constitutional, mainly on the ground that it was a municipal or police institution not prescribing any form of religious faith or worship, but merely setting apart one day in seven for relaxation and rest.

THE COST OF IT.—The Washington correspondent of the New York Courier, says that all speculation is now at an end in regard to the treaty—that it will be ratified at once by the unanimous vote of the Senate—and that Uncle Sam is to pay some \$15,000,000 for a piece of territory from Mexico equal to one third of her possessions.

[Correspondence of the News.]

New York, Feb. 11th, 1818.

FRIEND JACKSON:—

The auxiliary steamer "Sarah Sands" has arrived from Liverpool, making the remarkable short passage of nineteen days. She brings more "aid and comfort" in the shape of additional failures. Among the most important, is the house of Delaunay & Co., of Havre and New York. Cotton is steady, and Corn is declining. Politically, there is nothing very important.

The spring trade is commencing, and New York seems filled with strange faces. Our hotels are rapidly filling up; every boat and train of cars from the back country comes filled with country merchants. Our city merchants are anticipating a lively spring business.

The telegraph furnishes no news from the south, of any importance.

Gen. Wool has not had the pleasure of whipping the "rascally Mexicans," who have the presumption to defend their homes and their fireside, against their invaders. It may be considered treason to say aught against the present war, but it certainly cannot be so to express a wish that it were honorably ended. To accuse any person or party of being a traitor, because they wish a speedy adjustment of all difficulties, and an end to butchery, is most silly. Every one knows that the party opposed to the administration, comprising, at least one half the population of the country, has given vigorous assistance in carrying on the war in the field. It is right and just to oppose the inception of this war, but, since we are in it, to aid and assist in its proper prosecution and honorable termination, and that speedily, is the duty of every American. Those who seek evidence of the disposition of the opposition to give "aid and comfort to the enemy" let them appeal to every battle field in Mexico. Buena Vista, Cerro Gordo and Churubusco are red with monumental inscriptions of their patriotism and valor. The glory of victory, the hurricane of war, may, for a time, sway the minds of people, but when they grow tired of war and war's alien, the most hideous features of the monster will reveal themselves, and then will come the final settlement with the people. Then the President and those opposed to his policy will have an opportunity of satisfying themselves.

The wheels of the governmental chariot at Washington seem to revolve very slowly. Long speeches are made every day, but in not one does there seem a ray of light to give the people an idea upon what the future policy of the government is to be based. All appears to be shrouded in obscurity and dark uncertainty. There is something "rotten" at Washington.

It is useless to enter into speculations on the subject but merely hope that the powers that be will see the necessity of adopting prompt measures for arresting this war of conquest and, at the same time guard well the honor and integrity of the United States.

At the Opera, Madame Bisaccianti has been very successful. The excitement caused by the dispute between the various critics, has had the effect to crowd the house every night she sings. She appears to be gaining favor with the audience, and, if she was not an American, she would probably be admitted to possess talent and genius. At all events she is in a fair way to sing down her enemies. Yours &c.

COSMOPOLITE.

CANADA.—A correspondent of the Montreal Courier deprecates the condition of Canada, and asks:

"Shall we have a separation from the Mother Country and become a Republic? or shall we join the United States? These are the two questions upon which the country must decide. Mr. L. Joseph Papineau has declared for a Republic. He has caused one rebellion to obtain it."

TENANTY MEETING.—A preliminary meeting of rent-payers was held in New York city on Saturday night with a view of counteracting a secret combination of landlords to increase rents whenever it suits them, and mark those who fail to pay punctually, whether from misfortune or other cause. A general public meeting was removed upon, and committees of each ward appointed to make arrangements, collect money, and report as to the propriety of a permanent organization or tenant league.

An appropriation of \$5,000 has passed the Senate of Mississippi for the benefit of the volunteers of that State now in the field.

A NEW CANNON.—War is fruitful in new inventions for the slaughter of man. Human ingenuity is ransacked in order to render all means of defence unavailing; and the discoverer of any death-dealing piece of mechanism is hailed with applause and rewarded with public honors. The steep and rocky mountain passes in which the Mexicans have often taken refuge, have rendered the transportation of cannon impossible; but this difficulty, it appears, will be overcome in future by a new piece of ordnance, which has just been completed at the Empire Works, in New York. The Sun thus describes it:—

"It is lighter and stronger than any ordnance yet in use—can be made of any size and power, for harbor and fortress defence, and has, within the virtue most needed in Mexico—it can be carried anywhere that man can get, up and over the highest mountains and most rugged passes. It is made of plates and bolts, in such a manner that twelve or a hundred pounder can be taken apart, packed on mules or men's backs to the desired spot, and in fifteen minutes be put together for certain and deadly service."

It is said the spotted fever—one of the most malignant diseases the human body is subject to—prevails extensively in Michigan, especially in the Western part of the State.

A large public meeting was held in Middletown, Conn., on Monday, to make arrangements for the burial of Col. Ransom's remains, but his friends there yielded to the wishes of his widow, who finally decided on Norwich as his last resting place.

The Quebec Mercury laughs at the "intense modesty" which prohibits the publication of births in the United States. Births are not published here because the y are regarded as "family secrets," which however, get abroad fast enough without the aid of newspapers.

Cheap Postage petitions are getting up in New York.

We learn that a large collection of ladies in Clintonville, on Tuesday, got up a sleigh ride to Fairburg. They were regularly organized, and extended invitations to the gentlemen of the village, called for them at their residences, and after a frolic, rich with life and laughter, politely escorted them to their respective residences. It being an extraordinary year, extraordinary privileges were of course accorded to the ladies.

NEWSPAPERS.—A bill has been introduced into the legislature of New Jersey, "for the preservation of newspapers," which authorizes the clerks of the counties to subscribe for, and preserve in a bound form, all the newspapers published in their several counties. The advantages which must result from this measure are too apparent to require comment, for newspapers are the true chronicles of the times.

It is not often that we find amongst the Medical Faculty suffice to endorse to accord any merit whatever to "Patent Medicines" as it conflicts with their interest so to do; but below we give an exception.

Opinion of a Regular Physician.

Exeter, Me. Sept. 30, 1815.

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs, for two years past and many bottles to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

CAUTION.—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as Brown's Sarsaparilla and Tomato Bitters. Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomatoes, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for Impurities of the Blood, bad Humors, Scrofulous diseases, Bilious affections, Costiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best alterative now in use. We have abundance of proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medical qualities of this most valuable root.

The Lady's Faith in Radway's Soap. I knew my face was Tanned and Freckled, With Pimples, and with Blotches speckled Sunburned and other annoying Spots, With Scoury, Mordant and Salt Rheum, Upon my eyelids assumed To reign with full authority. But, ah! my friends, I'll cure them soon, With a soap of a superior quality. Radway's Chinese Medication—Is the name of this precious Soap: It really cures all herein stated—Either Pimples, Blotches, Tan or Spots. The lady said she spoke the truth, She found the Soap the friend of youth, And beauty now assumed its place, Upon the clear, transparent face, All ye who have upon your skin, Pimples or Blotches, Pustules or Tan, On the neck, the nose, the face or hands, Or if perchance upon your arms—And would possess angelic charms, Fear not to rest your faith and hope In Radway's Medication Soap.

A secret which heightens the ingenuity of all who have attempted to analyze its properties. The extraordinary effects of this delicious emollient is truly astonishing. For no sooner is Radway's Soap applied to the surface than tan, sunburn, pimples, blotches, itching and other excruciating skin diseases disappear, soothe, heal and sweeten the skin, and impart beauty to the complexion of all who use it. Sold for 2s. for large, and 1s. for small, at 2 Courtland st. N. Y. R. J. TAYLOR, Agent.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists. We have now a clear understanding of the different action of elements, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth. The great object, therefore, is to ascertain what remedy will act most directly upon the constituents of the blood when in the act of combining. Experience, observation, and a cloud of witnesses, establish the fact that SAND'S SARSAPARILLA, is at the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unfailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

Prepared and sold by A. B. & D. SANDS, Druggists, 199 Fulton st. N. Y. Sold also by Dr. R. R. Hazard and R. A. Taylor Newport, by J. Russell, Fall River, by G. Dyer, For sale by R. J. TAYLOR.

To enable Men and Women to Die of Old Age with Ease.—The public may not be aware that Rev. B. Hubbard's Vegetable Pills are the best Family Medicine extant; perfectly reliable in every emergency. No one can foresee the moment when they or their children may be attacked. Disease comes like a thief in the night, and in times of peak anxiety and danger, it is a relief to the mind to have at hand a remedy so certain, prompt, and efficient in warding off as well as curing disease. Ship Fever, Typhus Fever, Congestive and Bilious Diseases are rife throughout the land. To travellers, emigrants, soldiers, and families, we say neglect not to provide yourself with so potent a preserver of the blood; so safe, mild, and universal a remedy as these Vegetable Pills. Remember the name of Rev. B. Hubbard is on the label of each box. All others are spurious. T. L. Hubbard, M. D., 96 John-st., New York, proprietor. See advertisement in an other column.

**Phalon's Chemical Hair Invigorator.**

A REMEDY for all diseases of the Hair, and is restorative in all cases where baldness is not beyond the reach of art.  
Naught with beauty can compare,  
With soft, glossy locks of hair;  
If not endowed with such by nature,  
Use Phalon's Hair Invigorator.

The subscriber having devoted a considerable portion of his time, or twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to excel.

The Chemical Hair Invigorator is composed of a number of vegetable ingredients of opposite qualities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has spared neither pains nor expense in bringing it before the public.

The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture of the hair never before attained, yet free from animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also imparts to it a darker color, and a fine use of it will keep both the skin and hair in a healthy and luxuriant state until the last period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moistened with the Invigorator can be dressed in any required form, so as to preserve its place whether plain or in curls. When used on children's heads it lays the foundation of a good head of hair.

## The Good Things of the Season, FOR Parties, Holiday Pre- sents, &c.

WINTER evenings and YOUNG'S Variety Store form pleasant associations for the inhabitants of Newport. There is nothing so scarce that can contribute to the comfort of all, that cannot be obtained at this store, and all as low and a great many much less than can be bought elsewhere in Newport. For example, we will attach the following prices, and every article is warranted.

Western Apples from \$1.75 to \$2.12 per bushel; shell-barks \$2.50 per bushel; peanuts \$1.62 per bushel; chestnuts from four to five dollars per bushel; almonds one shilling per pound; new raisins, figs, dates and currants 12 1/2 cts per pound; we sell these last named articles at wholesale prices. Prunes 26 cts per pound; grapes 25 cts; new citron 28 cts; preserved ginger \$1.12 per jar, or 30 cts per pound, in small quantities; candies and all kinds of confectionery cheaper than they have ever been sold at any other store in town, at wholesale and retail, always fresh and of the finest quality; for the truth of this we wish every one to come and judge for themselves.

This is no idle advertisement merely to draw people to my store to disappoint them, but a plain statement of facts, which all may ascertain by calling. Also several kinds of Cough Candy, warranted equal to any now in use, for the cure of all kinds of complaints arising from colds.

Fancy articles and toys of every description, in any quantity, such as silk purses, pocket books, cigar cases, pocket knives, scissors, razors, razor stops, hair, clothes, tooth and shoe brushes, fancy work boxes, walking canes, dominoes, dice, conversation cards, French and Highland do, combs of all kinds, cologne, hair oil and pomatum, cigars, tobacco, and everything that is ever kept in a confectionary and variety store.

IF Rev. B. HIBBARD'S Vegetable and Anti-Bilious FAMILY PILLS are not found to be the most convenient, the best physic you ever tried, and fully equal to any recommendation of them, you do not find that one of these pills does more good than four to six of any other kind, every agent stands ready to receive the empty boxes and refund the money.

These Pills are recommended as being without an equal in all Bilious attacks, affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insensible perspiration through its accustomed channels, and relieving at once the internal organs. Also in all chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.—Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give away.

Half a Pill is the usual dose, though some require One Pill, or even more. Children of one year and over, one quarter of a pill, of 7 years and over, half a pill. These Pills are purely VEGETABLE, and may be taken under all circumstances, without regard to diet.

## Hyer's Pills. The American Improved Hygienic Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE.

THIS medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding cures daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple and natural means of restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by recommendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has necessarily compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted it in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying action is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the hardest hair into the softest, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxurious state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls.

### Coggeshall & Bliss' Patent Cooking Range.

THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.

This Range may be set in the ordinary fire place, and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves.

It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains an Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they may at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.

### DOCT. EMANUEL'S BALSAMIC LUNG AND COUGH JELLY.

THE materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich and poor.

Names and residences of persons residing in the city of New York, who have benefited or benefited by Dr. Emanuel's Balsamic Cough and Lung Jelly, when it was prepared in another form:

Mr. Hiram Annetts, 113 William-st., N. Y., had for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of Dr. Emanuel's Balsamic Lung and Cough Jelly, which perfectly cured him.

Mrs. Morgan, Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and Dr. Emanuel's Balsamic Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your hearts and understandings, if you are afflicted with any pulmonary complaint, cough, cold, &c.

Mr. L. W. Conklin, 102 Eldridge-st.  
Mr. Abner Brown, 72 Rade-st.  
Mrs. Morgan, 162 Front-st., Brooklyn.

Orange country, April 19th, 1846, DR. EMANUEL.

Dear Sir:—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.

Yours, dear sir, with great sincerity, ISAAC J. BEED.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.

Dr. Emanuel's Balsamic Lung and Cough Jelly, is sold by the Agent, R. J. TAYLOR.

Price fifty cents a bottle, or larger sizes one dollar.
